Spyderco 2016 Concept Model – Tadao Terada Kitchen Knife

This one's also known as the K11 Cook's Knife in the 2016 Spyderco product catalog, so I was nicely surprised to learn that this 'numbered' kitchen knife was actually designed by a knife maker called Tadao Terada. The Terada Kitchen Knife handled like a very elegant, thin and light kitchen knife. This thing is probably a veritable laser in the kitchen. I can't wait to get my own to use in the kitchen, and I'd love to see a serrated version of this design as well.
